The Gem series is a glazed porcelain wall tile with a unique and delightful dimensional element. Each sheet of six 2 × 16 tiles combines a random assortment of fluted (convex, concave) and flat tiles, attached to a mesh back for easy installation. The random assortment of each sheet will give your overall installation a more random organic appearance. The colorways are available in cool tones, warm tones as well as Bianco and Grigio for your neutral palette needs. A pencil bullnose trim piece is available and adds flexibility in application.

Piece to piece variation in shade or color are inherent in all fired clay products; therefore, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. This series is suitable for residential and commercial applications.

2 × 16 Mesh Sheet

(6 - 2 × 16 tiles/sht)
 (1.2912 sf/sht)

The Gem series features 3D textured tiles, including flat, convex, and concave, which are randomly mixed on each sheet. The design is intentionally random, and individual flat, convex or concave tiles, cannot be sourced separately or arranged in specific patterns.
