Interior Wall
Exterior Cladding
Fireplaces
Shower Walls
Steam Showers
Pool & Spa

The Glam series is an Italian made glazed porcelain tile offered in glossy and matte finishes. It has a slight undulating texture and a glaze with organic variations. The rectangular shape offers numerous pattern installation options. The color palette of Glam features Sage, Green and Blue plus a few neutrals that are very versatile in both traditional as well as modern installations. Surely you will find that the Glam series is a wonderful addition to your next project. Also a pencil bullnose trim piece is available and adds flexibility in application.

Because this material is a porcelain product, minimal maintenance is required. There can be noticeable variances between pieces, so it is important and recommended that a range of this product be viewed before finalizing a purchase. Piece to piece variation in shade or color are inherent in all fired clay products; therefore, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. This series is suitable for residential and commercial applications.
