

# ARIZONA TILE

## SILVER BEIGE VEIN CUT

### PRODUCT TYPE

Limestone

### STOCKED FINISH

Honed

### STOCKED SIZE

16 × 24 × 3/8

### RECOMMENDED USES

Commercial

Residential

Interior Floor

Exterior Floor

Interior Wall

Exterior Cladding

Fireplaces

\*Shower Walls

\*When installed in interior wet areas, the product must be sealed and maintained properly. If it is not, the appearance of the product could be altered. Please contact your installer or sales representative for more information.

Silver Beige Vein Cut is quarried from a bedrock quarry in the southwestern region of China in the Guizhou Province. This is a sedimentary stone that is formed on shallow sea beds from monsoonal rains washing minerals, plants and animals into the sea. It is composed mainly of calcite calcium carbonate. Structurally, Silver Beige is a very hard limestone. Some common characteristics that are visible in this limestone are quartz veins and grey portions. These veins are a natural characteristic of the material and are expected to be visible throughout much of the product. There will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. This material may show factory buffer or wheel marks in certain light angles and is common for this product. Material may need to be buffed after installation to help remove the marks. The cost of honing is not the responsibility of Arizona Tile, but either the installer or homeowner. Material is sold as is. It is important to seal this item with an impregnating sealer or use grout release. It should be applied before grouting which makes the grout clean up faster and easier.

Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. As a natural stone product, it is recommended that it be sealed to extend its longevity.
