## STOCKED SLABS

Available in both Honed and Polished

3/4" (2cm slab)

1-1/4" (3cm slab)

Bianco Venatino is a crisp white marble with pencil-thin, grey veining. Structurally, this particular stone also happens to be very consistent between blocks. Small pin holes are common in Bianco Venatino, as well as within other white marbles that are produced in the surrounding area. It is also a softer stone, and may be susceptible to scratching or abrasion. The tile and slab come from different layers in the quarry. Therefore, it is important to note that if both are being used in a project, it is recommended to verify the colors prior to installation. There will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. As a natural stone product, it is recommended that it be sealed to extend its longevity. When installing white marble, you must use a white thinset; using grey thinset will leave trowel lines and could stain the marble.

SIZE	SF/PIECE	PIECES/BOX	SF/BOX	BOXES/PALLET	SF/PALLET
