CS-Sky Blue Honed Chevron Mesh

The Completa Series (CS) is a collection of natural stone tile, trim and mesh mount designs offered in six color collections each with 12 or more mesh mount variations. Each mosaic variation is artistically crafted with exclusive materials strategically arranged to display the material in unique and breathtaking designs. Shown here is CS-Sky Blue which is a faint blue marble with subtle white details scattered throughout each piece. Its slight blue hue gives it a luxurious, ethereal appeal. A mesh backing is adhered to the back of each decorative mesh mount product. Because this series is comprised of natural stone, there will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. As natural stone products, it is recommended that these be sealed to extend their longevity. When installing any of the options with white stone, you must use a white thinset. Using a grey thinset will leave trowel lines and could stain the stone.
