SIZE
Approximately 12”x12” Mesh Sheet

RECOMMENDED USES
Commercial
Residential
Interior Floor
Exterior Floor
Interior Wall
Exterior Cladding
Fireplaces
Showers
Shower Floors

These pebbles are a product of nature, therefore there can be noticeable variances between pieces, so it is important and recommended that a range of this product be viewed before finalizing a purchase. A mesh backing is adhered to the back of the stone.

*It is possible that Flat Pebble can have rust or oxidation spots from time to time. These rust spots are from the small amount of iron in the stone. It’s recommended that Flat Pebble be sealed to help reduce the amount of moisture that can get into the stone.

**When installing white stone you must use a white thinset. Using grey thinset will leave trowel lines and could stain the stone. It is recommended that this product be sealed to extend its longevity.
