The Brillo series is a rectified glazed ceramic wall tile. As a simplistic, minimalist tile, it can be used in a variety of environments. A glossy finish on the surface of the Brillo series gives it a modern aesthetic that elevates your design. This series is suitable for residential and commercial applications.

For proper bonding, LFT/LHT mortar for large format and heavy tiles should be used when installing tiles with a dimensional length greater than 15 inches, and rectangular shape and plank tile, per industry standards. Proper thinset coverage is also necessary, and in some cases, back buttering of tile may be required.
