Fireplaces
Shower Walls
Steam Showers
Pool & Spa (waterline)

DYNAMIC C.O.F. WET: ≥0.42

P.E.I. RATING: 4

FROSTPROOF: Yes

The Porta Nuova Series is a rectified color body porcelain. Inspired by the rich tones of natural wood, this series has an organic look and offers a warm, enduring appeal. It is available in six neutral, on-trend colors and provides an inviting aesthetic that is available for residential and commercial installations. Because this material is a porcelain product, maintenance risks involved with actual wood flooring are eliminated.

There will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. This series is suitable for residential and commercial applications. For proper bonding, LHT/LFT mortar for large format and heavy tiles should be used when installing tiles with a dimensional length greater than 15 inches and rectangular shape and plank tile, per industry standards. Proper thinset coverage is also necessary, and in some cases, back buttering of tile may be required.

When installing rectangular or square tiles 15 inches or longer with a staggered joint, it is recommended that the offset should not exceed 33%, unless otherwise specified by the manufacturer.

**PRODUCT CONTAINS
≥10% POST-CONSUMER

DCOF rating is a measurement of a tile's frictional resistance. It is the specifier's responsibility to ensure the chosen tile is appropriate for each interior and exterior application.

Standard packaging quantities are noted above, but variances may occur.
