SPECIAL ORDER

Special Order Sizes, Colors and Finishes Available: Please contact your Sales Representative for more details.

The Smooth Series is an Italian made white body ceramic wall tile and offers a wide array of neutral and smoky color hues. The research and development that led to the creation of this color palette is apparent. Due to its breadth of color offerings, this series can be used in combination with natural stone or other tile series, including glass tile. It is available in five colors, with White offered in both the glossy and matte finishes.

Smooth Sand Matte 4 × 24 & 8 × 24

When installing rectangular or square tiles 15 inches or longer with a staggered joint, it is recommended that the offset should not exceed 33%, unless otherwise specified by the manufacturer.

For packaging information, please contact your local Arizona Tile.

DCOF rating is a measurement of a tile's frictional resistance. It is the specifier's responsibility to ensure the chosen tile is appropriate for each interior and exterior application.

Please view actual material when making your selection, as the images on this page are only representative.
